"This attractive young lady, daughter of General Lomax, one of the bravest of Confederates, is an unusually pretty girl, and one with the most charmingly sweet manners. She is of a peculiar type, her hair being light and of the reddish tint "that Titian loves to paint." A warm color that one sees with a milky complexion. She has regular features, a graceful figure, and is one of the most complexion. She has regular leatures, a graceful figure, and is one of the most fascinating girls of which the Old Domion can boast. Her native place is Fauquier county, one of the garden spots of Virginia. Her father is one of the gentlemen in whose charge is placed the war records. Miss Lomax's home has been at the capital for some years."

CHICAGO PRODUCE MARKET.

CHICAGO, March 10.—The government report on wheat to be issued late in the afternoon acted as a restraint on trade in that grain to-day. The crowd has it pretty weil settled to its own satisfaction that there is a good, large reserve yet hold by farmers, and the Agricultural Department's figures are not likely to exert a very powerful influence. The effect of the document in advance was, however, rather detrimental to business. The market ranged below that of yesterday all through the session, although at the close the demand from put-holders was instrumental in producing a steadier feeling at a fair recovery.

May wheat opened at from 64 to 64 7-8c., declined to 64 1-2c, and closed at 64 7-8c, declined to 64 1-2c, and closed at 64 7-8c, declined to 64 1-2c, and closed at 64 7-8c, declined to 64 1-2c, and closed at 64 7-8c, declined to 64 1-2c, and closed at 64 65c.—1-2c, under yesterday. Cash wheat was easy.

The weakness of wheat affected corn to the extent of causing an easier feeling, but not enough to produce a marked decline in values. During the session there was a fractional loss, but immediately previous to the close a raily took place, and final quotations were about the same as those of yesterday. Business was duli, no incident of particular note taking place.

May corn opened at 39 1-8c., sold at CHICAGO PRODUCE MARKET.

no incident of particular note taking place.

May corn opened at 30 1-8c., sold at 30 1-46-30 3-8c., and closed at 30 1-4c.—unchanged from yesterday. Cash corn was steady to 1-4c. higher.

Oats moved but 1-8c. during the session. The range shows the limited volume of business. The inactivity gave the market in appearance of steadiness, which ruled throughout. May oats closed a shade under yesterday. Cash oats were quiet. Provisions—There was a gain in the prices of hogs this morning at 520c, per hundred-weight, and owing to that improvement there was a corresponding gain in product. Business was only moderate, and was confined to local operators exclusively. At the close May pork was 10612 1-2c. higher than yesterday, May lard 5c. higher, and May ribs 7 1-220c. Sun's cotton report: Cotton sdvanced 2 to 4 points; reacted, and declined, but railled and advanced, closing steady, with prices 5 to 7 points higher on this crop, and 1 to 2 higher on the next. The sales were 259,000 bales.
To-days features: Prices at one time of a setback here and abroad from the sharp talk at the expense of the Spanish Minister to-day, but speeches of a more pacific character were also delivered, and what was more to the point, the receipts at the interior towns were so small and time spot demand so large, and the covering of shorts see liberal, that the prices was speedily forced upward again. Europe bought freely; so did the South. There is a large short interest on that side in New York.
